Join us for this free webinar sponsored by the National Capital and Western Pennsylvania chapters of HIMSS.

In this webinar Jim Oakes, Principal, HCIC and David Colaizzi, CEO/CTO, Five Star Development, Inc. will share best practices for jump starting the EHR Technology and Clinician Adoption planning processes. The objectives for this webinar include:

- Discuss the complexity of Meaningful Use
- Present a four step technology planning process
- Present a framework and best practices for gaining clinician adoption

Registration is open to all HIMSS members and guests. If you are unable to attend, please forward this invitation.

CHIMSS credits to be granted subject to HIMSS approval.

Presenters

Jim Oakes

James L. Oakes Jr. - Principal, HCIC, LLC
Mr. Oakes' career spans 30 years in healthcare information systems and management engineering, with extensive experience as an operating manager, vendor executive and consultant. He specializes in helping healthcare providers plan and optimize their use of information resources, systems, and technology to improve clinical, operational, and financial outcomes.

David Colaizzi

David Colaizzi - CEO/CTO, Five Star Development, Inc.
Mr. Colaizzi has more than 25 years of experience in providing consultation services to health care providers, Fortune 500 corporations, colleges, universities, and software development firms in the areas of training design, software development, technology adoption, and project management.
